Waves and Fields in GR (11:30 - 12:45)

-Conveners: Daniel Charbulák

time	[id] title	presenter
11:30	[26] Phantom scalar field solution in the Weyl class	SVÍTEK, Otakar
11:50	[33] String loop vibration	CHURILOVA, Mariia
12:15	[3] Distinguishing regular and singular black holes in modified gravity	DEMYANOVA, Aleksandra
12:30	[13] Recurrence quantification analysis of observed gravitational wave data generated by compact object mergers	VOZÁROVÁ, Lenka
