## Tuesday 20 October 2020

### Modelling of Accretion Flows III (16:00-17:40)

time	[id] title	presenter
16:00	[23] From gappy to ringed: signatures of the accretion disk radial structure in profiles of the reflection line	Mr ŠTOLC, Marcel
16:25	[17] Magnetically Ejected Disks: Equatorial Outflows Near Vertically Magnetized Black Hole	KARAS, Vladimír
16:50	[14] Perturbation of the accretion flow onto supermassive black hole by a passing star	SUKOVÁ, Petra
